**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2001**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

This general purpose financial report has been drawn up in accordance with Australian Accounting Standards, Urgent Issues Group Consensus Views and other authoritative pronouncements of the Australian Accounting Standards Board.

It is prepared on an accruals basis in accordance with the historical cost convention, except for certain assets which, as noted, are at valuation.

The accounting policies adopted are consistent with those of the previous financial year. Comparative information is reclassified where appropriate to enhance comparability.

(b) Principles of Consolidation

The consolidated accounts incorporate the assets and liabilities of all entities controlled by the Catchers Trust ("parent entity") as at 30 June 2001 and the results of all controlled entities for the year then ended. The Catchers Trust and its controlled entities together are referred to in its financial report as the economic entity. The effects of all transactions between entities in the economic entity are eliminated in full.

(c) Income tax

The Trust does not pay income tax. Taxable income is fully distributed to Unit Holders each year.

(d) Cash

For the purposes of the statement of cash flows, cash includes deposits at call which are readily convertible to cash on hand and which are used in the cash management function on a day-to day basis, net of outstanding bank overdrafts.

(e) Recoverable amount of non-current assets

In determining the recoverable amount of non-current assets, expected net cash flows have not been discounted to their present values.

(f) Trade and Other Creditors

These amounts represent liabilities for goods and services provided to the economic entity prior to the end of the financial year and which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

INDEPENDENT AUDIT REPORT

To the members of the Catchers Trust

Scope

We have audited the financial report of the Catchers Trust (the Trust) for the financial year ended 30 June 2001 as set out on pages 1 to 7. The financial report includes the consolidated accounts of the economic entity comprising the Trust and entities it controlled at the year's end or from time to time during the financial year. The trustee Company's directors are responsible for the financial report. We have conducted an independent audit of the financial report in order to express an opinion on it to the members of the Trust.

Our audit has been conducted in accordance with Australian Auditing Standards to provide reasonable assurance as to whether or not the financial report is free of material misstatement. Our procedures included examination, on a test basis, of evidence supporting the amounts and other disclosures in the financial report, and the evaluation of accounting policies and significant accounting estimates. These procedures have been undertaken to form an opinion as to whether, in all material respects, the financial report is presented fairly in accordance with Accounting Standards, other mandatory professional reporting requirements and statutory requirements in Australia so as to present a view which is consistent with our understanding of the Trust's and the economic entity's financial position, the results of their operations and their cash flows.

The audit opinion expressed in this report has been formed on the above basis.

Audit Opinion

In our opinion the financial report presents fairly in accordance with applicable Accounting Standards and other mandatory professional reporting requirements the financial position of the Catchers Trust as at 30 June 2001 and its performance for the year ended on that date.

CATCHERS TRUST INFORMATION FOR UNIT HOLDERS – 2001

What does the Catchers Trust do and how does it earn income?

The Catchers Trust owns one half of Sydney Fish Market Pty Limited (SFM) and represents the commercial fishermen and aquaculturists of NSW who sell fish products through the Sydney market. The other half of SFM is owned by another company representing SFM merchants and tenants.

From time to time, SFM pays dividends to its shareholders and the Trust uses this money to make distributions to Unit Holders.

What has the Sydney Fish Market got to do with me?

SFM provides two important benefits. First, the market sells your catch on its auction floor with bidding from 170 very competitive buyers, and payment guaranteed on the Friday following the week of sale. Second, as a Unit Holder in the Catchers Trust, your share of the annual SFM dividend is calculated on the value of the product you place on the auction floor.

In simple terms, the more you sell through SFM, the better your dividend.

With the deregulation of fish marketing, members of the Catchers Trust should remember that they will profit more from selling their catch through SFM.

Who can own a unit in the Catchers Trust?

The Catchers Trust exists for the benefit of commercial fishermen.

Any person who holds a NSW commercial fishermen's license, or a NSW commercial fishing boat license, or a NSW commercial fishing boat registration license or a NSW commercial aquaculture license can apply for a unit in the Trust. There is no application fee payable, but you must send in a signed application form. Application forms can be obtained from the Catchers Trust, any NSW registered fishermen's co-op, or Sydney Fish Market.

At the end of June 2001, there were 1,480 Unit Holders.

Who manages the Catchers Trust?

The Catchers Trust is run by a Board of Directors who are elected by the Unit Holders. Each director represents a fishing region; there are seven regions (based on the old CFAC regions). Directors hold office for 3 years, and every 18 months elections are held for half of the Board.

At 30 June 2001, the directors were:

Region 1 – John Gallagher
Region 3 – Ted Byrnes
Region 5 – Carl Blackledge
Region 7 – John Symonds

Region 2 - George Baker (Chairman)
Region 4 - Brett Bollinger
Region 6 – Mario Puglisi

Who works out how much money each Unit Holder gets?

Basically, you get paid according to the value of product that you sold through Sydney Fish Market. The more fish you sold through Sydney Fish Market, the bigger your share of the distribution.

Why did you deduct tax from my payment?

If you didn't tell us your Tax File Number (TFN), then we are required by law to deduct tax at the rate of 48.5%. This tax is shown on your distribution statement (in the box marked "R"), and you will get credit for it when you lodge your tax return.

**CATCHERS TRUST
INFORMATION FOR UNIT HOLDERS – 2001**

I didn't receive the distribution payment until September, why does it have to go in my 2001 tax return?

It is a requirement of the Tax Act.

We processed the distribution payment as quickly as we could, but we couldn't get the cheque to you any quicker.

I've already lodged my 2001 tax return. What should I do?

You should consult your tax adviser. The distribution should be included in your 2001 tax return.

Why isn't the taxable income from the Trust equal to the value of the cheque that I received?

The difference is due mainly (but not solely) to imputation credits (a type of tax credit). These credits increase taxable income on the one hand, but on the other hand they also work as a tax rebate – reducing your tax bill when you lodge your tax return.

Your distribution statement shows how to report this distribution in your tax return. Check with your tax adviser if you need more information.

What is an imputation credit?

An imputation credit is a credit for tax paid by someone else (in this case, Sydney Fish Market). When the Trust received its dividend from Sydney Fish Market, it also received tax credits on those dividends.

I fish with another fisherman and we sell the fish under my name. Why didn't the other fisherman get a cheque too?

If your Co-op supplier code or Sydney Fish Market supplier code is in your name, then we have given you 100% of those sales. You'll need to work out the other person's share of your sales so that you can give them their share of the cash payment, taxable income, imputation credit and tax credits.

You should also consult your tax adviser.

My fish is sold under someone else's name. Where is my cheque?

You'll need to contact that other person and work the matter out with them. You should also consult your tax adviser.

I'm a member of the Trust and I sold fish during the year. Why didn't I get a cheque?

There could be several reasons.

One of the most common situations is where several members of a family or crew each have a Unit in the Trust, but the actual fish sales are in the name of one person only. In these cases, we give the whole payment to the Unit Holder whose name is on the Sydney Fish Market (SFM) system.

Another situation is where an SFM supplier code is in joint names, but there is no Unit in the joint names. In these cases, we give the whole payment to the person whose name is the first of the joint names on the SFM system.

In both these cases, we have no way of knowing whether and how the sales should be split among the fishermen. This is a private matter between the fishermen and it is up to them to sort it out.

**CATCHERS TRUST
INFORMATION FOR UNIT HOLDERS – 2001**

I sold fish direct through Sydney Fish Market, but I didn't get a cheque. Why not?

There could be a couple of reasons:

First, you must have been a member of the Catchers Trust on 30 June 2001. Applications that were received after that date are not eligible for a share in the 2001 distribution. This rule may seem harsh, but it is applied fairly and consistently to all fishermen.

Second, we may not know your Sydney Fish Market supplier code. If you are in any doubt, contact us or the Market and tell us your supplier code.

How does the Trust know how much fish I sold at Sydney Fish Market?

We get that information from two places.

First, if we know your Sydney Fish Market supplier code, then we gave you credit for fish sold under that code.

Second, we asked each NSW Fishermen's Co-operative (as well as other big group suppliers such as Eden Fish Packing, Southland Fish Supplies and Lakes Entrance Co-op) to tell us how much of their fish sales could/should be allocated to Unit Holders.

Should I tell the Trust if I change my address or SFM supplier number?

Yes!! If you don't tell us, then really we have no other way of finding out.

While we work closely with Sydney Fish Market and Fisheries, we do not (and, because of privacy laws, cannot) exchange name and address information. This means that if you change your address or your SFM supplier number, then please tell us.

Why do you still pay by cheque; I get all my other business income by direct credit?

This is the last time that we will be making distribution payments by cheque.

From now on, we will make all distribution payments by direct credit. This will apply to every Unit Holder – with no exceptions. We'll still send you a written notice of the payment details.

If you haven't given us your bank account details, then your distribution will be held on your behalf, and we'll let you know whether you have any unpaid distributions.

Make sure that you complete and return a Direct Credit Authority so that you can get your distribution payments by cheque.

IMPORTANT REMINDERS

Do we have your SFM supplier codes?

If you sell fish direct through SFM, then we need to know all your SFM supplier codes.

Your distribution statement shows the SFM supplier codes that we have assigned to you.

If you have any other SFM supplier codes (or if any of these are wrong) then please tell us.

If you supply fish through a co-operative, then don't worry – you don't have to tell us about your SFM codes! At the end of each year, we check with each co-op and ask them to tell us how to allocate their fish sales among all the Unit Holders. You only need to tell us if you sell fish direct through SFM.

Have you completed a Direct Credit Authority?

From now on, distributions will be paid by direct credit to your bank account. Don't miss out on yours.
